OUR SUCCESS IS YOUR SUCCESS.

BENEFIT FROM OUR UNIQUE RECOVERY PROCESS AND UNMATCHED TRADITION OF TRUST.

EXPERIENCE

We are pioneers who developed many of the industry's best practices — our founders audited 50% of the Fortune 100. Our professional teams comprise seasoned experts in all facets of recovery auditing and transaction assurance.

INSIGHT

On every level, SAS brings the expertise of a large recovery firm process to all companies, including those that the largest firms typically do not service. No company equals our knowledge, talent, and most importantly, our proven, results-driven process.

STRATEGY

Our highly evolved strategic process begins with a disarmingly simple first step: Real listening and true understanding of client needs and goals. So often overlooked, the art of deeply understanding what clients want yields properly targeted strategies and desired results.

TECHNOLOGY

We use sophisticated, cutting edge technology to get your job done right. But unlike so many, who rely almost exclusively on technology, we view it solely as a tool — a useful support system that we tailor to suit each individual client.

REPORTING

At the conclusion of every SAS audit, our Management Report details our findings, audit opportunities and recommendations. We perform root cause analysis on our findings to give you actionable process improvements, minimizing future profit leakage.

COMPREHENSIVE SERVICES, AND THEN SOME. WE DO IT ALL, AND WE DO IT ALL WELL.

Our services cover all claim categories. We dig deeper than anyone else, going beyond the basics to deliver optimal results, and we tailor our programs and services to meet your unique objectives. Audit recovery categories and areas of expertise include:
